NATIONAL UNIVERSITY OF TECHNOLOGY (NUTECH)

OPEN HOUSE 2025 EMPOWERING PAKISTANI YOUTH

National University of Technology (NUTECH) & Tongwon University South Korea Join Hands for Global Academic Collaboration

A delegation from Tongwon University, led by Vice Chancellor Prof. Choi Jongwin, visited NUTECH to explore academic collaboration. Hosted by Rector NUTECH Lt Gen Moazzam Ejaz (Retd), the visit included discussions on research and skills programs. An Intent of Cooperation was signed to promote joint research, student exchange, and educational partnerships.

NUTECH hosted a vibrant Job Fair and Open House, linking students with top companies and showcasing groundbreaking final-year projects. Minister of Defence Production Raza Hayat Harraj and Sardar Yasir Ilyas, CEO Centaurus, praised NUTECH's research excellence and youth potential. This event promoted career growth, industry networking, and celebrated Pakistani innovation in technology.

NUTECH Welcomed 124 Afghan Students Under Zero-Semester Program for Inclusive, Cross-Border Academic Growth

International Delegation Visits National University of Technology (NUTECH)

NUTECH officials welcomed an international delegation comprising delegates from Bangladesh, Bosnia, Hungary, Ireland, Norway, Sweden, Switzerland, Turkey and Ukraine as part of the Budapest Working Group (Legal Pathway to Migration). This visit aimed to promote international collaboration and facilitate knowledge exchange in skill development and manpower export. The visit commenced with a comprehensive briefing by Rector NUTECH Lt Gen Moazzam Ejaz (Retd) highlighting NUTECH's pioneering initiatives in skills-based education and its significant contributions to manpower export through structured skills programs to countries such as Finland, China, and Japan. The delegation engaged in an interactive session highlighting NUTECH's certified overseas export promotion license and its focus on global employability through advanced skills and language training. The delegation also visited NUTECH's state-of-the-art facilities including the Skills Development Department, Entrepreneurship and Incubation Center, and technology labs. Members of the delegation praised NUTECH's academic and operational excellence, expressing strong interest in future collaborations.

National University of Technology (NUTECH) Hosts Successful Job Fair and Open House Event 2025

NUTECH held a dynamic Job Fair, connecting students with leading National and Multinational companies for interviews and career opportunities. NUTECH opened its doors for an inspiring Open House, showcasing innovative final-year student projects to a diverse audience. Minister of Defence Production, Raza Hayat Harraj graced the occasion as a chief guest, and Guest of Honor Sardar Yasir Ilyas, warmly welcomed by Rector NUTECH Lt Gen Moazzam Ejaz, (Retd). Minister Harraj praised NUTECH's cutting-edge research and pledged future collaborations, urging students to continue working hard. Each showcased project highlighted student creativity and technical excellence, reinforcing NUTECH's commitment to innovation and professional growth. This event provided valuable networking opportunities, spotlighting the immense potential of Pakistani youth in technology and industry.

German Embassy's Charge d'Affaires Visits National University of Technology (NUTECH) to Attend Graduation Ceremony of Differently Abled Students

NUTECH proudly hosted the graduation ceremony of differently abled students on 20 June 2025. Mr. Arno Kirchhof, Charge d'Affaires of the German Embassy Islamabad graced the event as chief guest. The ceremony was attended by the 28 graduating students, their parents, and dedicated faculty members. Graduation certificates were awarded to the students in recognition of their hard work and achievements on the successful completion of a three months course in Digital Marketing & SEO, and E-commerce. Rector NUTECH Lt Gen Moazzam Ejaz, (Retd) congratulated the graduates and appreciated the efforts being put in by the students and the faculty.

Mr. Arno Kirchhof, Charge d'Affaires of the German Embassy Islamabad, valued the dedication and hard work of students, faculty and NUTECH management for successfully managing and conducting the course. He further assured that in future, the German Embassy will continue to collaborate with NUTECH to support such initiatives.

Afghan Students Join National University of Technology (NUTECH) for Zero Semester Program

The National University of Technology (NUTECH), Islamabad, has welcomed 124 Afghan male & female students under its Specialized Zero-Semester Program. This program is part of the Allama Iqbal Scholarship, fully funded by HEC, Pakistan, and is designed to prepare students for their further undergraduate studies.

The Zero-Semester is intended to teach a refresher course of the basic subjects and provide the students an opportunity to connect with the university community, and explore various academic and extracurricular opportunities at the university. An orientation ceremony was held at NUTECH to welcome Afghan students enrolled in the Zero-Semester Program. Students were briefed about the university's academic structure, campus facilities, code of conduct and student support services.
