

Policy Name: Access of HEC Digital Library through VPN Service

Introduction:

This policy defines the guidelines on how to access HEC digital library using Corporate VPN Service.

Scope of Policy:

This policy is applicable to NUTECH Student and Faculty only.

Purpose of VPN Services:

Faculty and students can access all reading and other assignments through digital means including HEC Digital Library.

Methodology:

- Corporate VPN Services will be provisioned using L2TP (Layer 2 Tunneling Protocol) over IPSEC.
- Each user will be authenticated using Microsoft Active Directory Credentials provided to Students and Faculty.

Responsibilities:

ICT Office:

- Setup secure corporate VPN service for faculty and students.
- Provide/guide, How-to guides to setup VPN service.

Library Office:

- To coordination with HEC for access of all e-resources.

Special Instructions:

- If someone is found guilty of using multiple downloads strict disciplinary action will be taken against his/her.
- Key logger software's are strictly prohibited. If someone found guilty of using them, strict action will be taken against them.
- Fair usage policy applies.
