

## **Title of Activity:** Lecture on the Importance of Ethics

**SDG Description:** - Quality Education

**Venue:** Auditorium

**Mode: Physical/ Online:** Physical

**Date:** 7<sup>th</sup> April 2023

**Duration:** 1 hour

### **Brief Explanation of the Activity:**

Pakistan is facing one of the toughest times of its history. It is of utmost importance that we uphold the highest moral standards and sensitize our younger generation about the importance of ethics. Keeping this in view, Office of Student Affairs (OSA), National University of Technology, (NUTECH) arranged a lecture on the Importance of Ethics on 7 April 2023 for students, faculty, and support staff. The speaker for this lecture was Sehrish Shahnawaz, Student Counsellor at the National University of Technology (NUTECH). Students, faculty, and staff were educated about what are ethical and moral values and the importance they hold for a thriving society. They were sensitized about their biases and how they employ informed decision-making skills at the workplace and in their lives in general. This informative lecture ended with a question-answer session where the audience asked for solutions to their queries which were articulately answered by the speaker.
