

Title of Activity: Awareness Session Harassment

SDG Description: - Gender Equality
Reduced Inequalities
Peace, Justice and Strong Institutions

Venue: Seminar Hall

Mode: Physical/ Online: Physical

Date: 18th Dec 2023

Duration: 1hour

Brief Explanation of the Activity:

In a constantly evolving world, it is imperative to address the issue of sexual harassment head-on. Investing in sexual harassment awareness is an investment in a safer, more equitable future. Keeping this in view, on Monday 18 December, 2023, OSA arranged an awareness session to empower students, staff and faculty with the knowledge and skills needed to identify, prevent, and respond effectively to instances of sexual harassment. The purpose of this session was to create a community free from harassment but also join a collective effort to promote respect, dignity, and equality. By fostering a culture of awareness, we believe in creating a ripple effect that extends beyond the confines of the session, positively impacting relationships, communities, and workplaces. The activity is in-line with UN SDGs No. 5, 10 and 16.
